WHY I CHOSE PARKER:

I have always loved Colorado! I grew up here and remember with great fondness how I much I enjoyed the mountains, the snow and the people. So when it came time to establish my own practice, my destination was Colorado, without question. I spent a few months talking to the locals trying to decide where I wanted to be the most... and Parker won my heart, hands down! It is a progressive town filled with health conscious people who all seem to love it here. We have great schools, a fantastic economy, good local government, awesome recreational opportunities and the friendliest and most helpful community I've ever seen. In short, I chose Parker because of YOU! Thank you so very much for your input in helping me make my decision of where to live and work. You made a difficult decision surprisingly easy! I look forward to serving my new hometown!
